The Walking Forest Performance Action will start at **Dawn**

7.30 am on 5th November

Rottenrow Gardens (130 Rottenrow) and finish at **Dusk**

What needs to be exchanged and heard under the canopy of a felled tree?

WALK WITH US We welcome women and children to be part of the action and walk alongside for 10 minutes or the whole day mourning the loss of forests and ecosystems around the world and planting seeds of courage for a just and fair future.

MEET All are welcome to take part in different moments along the route when the tree stops to become a speakers corner, a shelter, a stage and a space where we can gather, reflect, listen and exchange stories.

The tree you will witness being carried is a birch. It was felled in its prime to make way for the HS2 high speed rail link which is destroying thousands of trees and ancient woodlands.

FOR details of **ROUTE** and stop off points visit The Walking Forest Info Station at Rottenrow Gardens anytime during the day.

Thursday 4th November 1.00pm-5.00 pm - Walking Forest 'Camp' and Tree carrying rehearsal, Rottenrow Gardens (130 Rottenrow)

Are you a woman inspired by the natural world hoping to make change in your community and the wider world? Are you concerned about climate and social injustice?

Join Walking Forest Artists for an afternoon 'camp' to share stories of standing up for change and learning about forest ecology. Hear from Global women earth defenders and learn about the history of the Suffragettes in Glasgow. We will end the day with a tree carrying rehearsal for those who wish to take part in the next days Performance Action across Glasgow.
